

AQUASCAN 610 LAPTOP[®]

LAPTOP LEAK NOISE CORRELATOR

The ultra compact 'cordless' LNC, combines extra powerful correlation technology with the usability and flexibility of a Toughbook PC.

The AQUASCAN-610 Toughbook PC correlator is the latest edition to the successful AQUASCAN correlator range from Gutermann. A single, multi-task Bluetooth™ Communications Unit provides fast, wireless data transfer between the 'Streetworks Act' friendly, cordless sensors, and the Toughbook PC, giving the user the greatest level of correlation processing power.

The compact transmitters with integrated accelerometers (no more cables!) allows working with closed hydrant and valve covers.

Advanced features:

- ▶ Ultra compact 'cordless' Toughbook PC correlator
- ▶ 'Streetworks Act' friendly, cordless sensors with built-in radio transceiver
- ▶ Built-in Bluetooth communication
- ▶ Highest precision on all pipe materials, including improved filtering on plastics
- ▶ On-site velocity check
- ▶ Fully automatic, 'wizard assisted' operation
- ▶ Advanced Spectrum Analysis (ASA) optimises filter setting
- ▶ High measurement resolution: 16,000 points
- ▶ Designed to locate difficult leaks including uPVC and MDPE
- ▶ Unlimited Correlation Memory
- ▶ Easy to print
- ▶ Free Firmware upgrades

The high measuring resolution of 16,000 points allows very accurate pinpointing (locating precision better than 1 cm per 100 m or 1" per 1,000 ft).

System Configuration

Bluetooth™ wireless Toughbook to sensors COMLink
Transmitting sensors with antenna and handle
12 V vehicle sensor charging unit
Correlator carry case
2 Years warranty

Optional Accessories

Hydrophones (pair) for use on non-metallic pipes
